

Please Join Assemblyman Mike Villines and Senator Dave Cogdill for the:

3rd Annual Fresno-Madera Community Renewal Summit

This Summit is designed to introduce you to the many opportunities available to your organization through public and private grants and other resources. It will provide exposure to the blueprints of some of California's best community-building programs, explained by the very people who developed and now operate them. Instructors also will highlight the key elements that will prepare your organization to navigate successfully through the grant process.

"We support the Community Renewal Summit and strongly encourage our Endorsed Agencies to participate because this powerful event advances our vision of our Fresno region becoming one of the top 20 communities in the nation. The Summit builds the kind of real collaboration that helps all of us perform better for the people we serve."

- Rich Kriegbaum, President, United Way of Fresno County

"The summit provides a great opportunity to break down silos and build alliances to further the programs and partnerships that make our communities great. What a rewarding experience!"

- Kristine Walter, ReadFresno
